

# I-Smile

**From little smiles  
to lifelong smiles,  
improving the  
health of Iowans**

## Need Dental Care?

I-Smile links children and families to dental homes and the care they need.

**It is best to get dental care before problems start.**

- Prevention is the best medicine. Don't wait until it hurts.
- Children should have their 1st dental visit by 12 months of age.

**Need help with dental care?
